Equine Rehabilitation at UF
August 2013

Evidence-Based Rehabilitation Plans

If your horse experiences a painful injury or decrease in performance, the UF Sports Medicine & Rehabilitation specialists are here to help generate a plan to put them on the road to recovery. Success of this rehabilitation plan depends on accurate diagnosis and proper treatment.

With advanced training and board-certified specialization, the Sports Medicine & Rehabilitation specialists are committed to providing the best rehabilitation program to get your horse back into competition. Call us to find out how we can help your horse.
